WuHan(武漢) is the city that suffers the most. During the most difficult time, medical teams, supplies from other cities kept sending to Wuhan continuously.

This epidemic helped us to realize how important health and family is to us. And all together, we can fight against anything!!

March 10th, all emergency hospitals created for this epidemic shut down.

China won the fight against corona virus.

Now, is time for Chinese to help other countries with our experience.

Wish this nightmare crisis can end up soon.

Hope you and your family stay safe and healthy.
